

# Washington State Center for Childhood Deafness & Hearing Loss

POLICY: 2022

Adopted: June 7, 2012

---

SUBJECT: **Electronic Resources**

Approved by:

  
Nita Kamphuis, Chair, Board of Trustees

---

The CDHL Board of Trustees recognizes that an effective education system develops students who are globally aware, civically engaged, and capable of managing their lives and careers. The board also believes that students need to be proficient and safe users of information, media, and technology to succeed in a digital world.

Therefore, the agency will use electronic resources as a powerful and compelling means for students to learn core subjects and applied skills in relevant and rigorous ways. It is the agency's goal to provide students with rich and ample opportunities to use technology for important purposes in schools just as individuals in workplaces and other real-life settings use these tools. The agency's technology will enable educators and students to communicate, learn, share, collaborate and create; to think critically and solve problems; to manage their work; and to take ownership of their lives.

### **CIPA (Children's Internet Protection Act) UPDATE**

To help ensure student safety and citizenship in online activities, all students will be educated about appropriate behavior, including interacting with other individuals on social networking websites and in chat rooms, and cyber-bullying awareness and response.

The director or designee will create strong electronic educational systems that support innovative teaching and learning, to provide appropriate staff development opportunities and to develop procedures to support this policy.
